hospitalizations in patients with cancer should test specific interventions to enhance the delivery of outpatient cancer care, evaluating the effect of these interventions on hospitalization rates.

Gabriel A. Brooks, MD
Joseph O. Jacobson, MD
Deborah Schrag, MD, MPH

Author Affiliations: Department of Medical Oncology, Dana-Farber Cancer Institute, Boston, Massachusetts (Brooks, Jacobson); Harvard Medical School, Boston, Massachusetts (Schrag).

Corresponding Author: Gabriel A. Brooks, MD, Dana-Farber Cancer Institute, 450 Brookline Ave, Boston, MA 02215 (gabriel.brooks@dfci.harvard.edu).

Author Contributions: Dr Brooks had full access to all of the data in the study and takes responsibility for the integrity of the data and the accuracy of the data analysis.

Study concept and design: All authors.

Acquisition, analysis, or interpretation of data: Brooks, Schrag.

Drafting of the manuscript: Brooks, Schrag.

Critical revision of the manuscript for important intellectual content: All authors.

Statistical analysis: Brooks.

Obtained funding: Jacobson.

Study supervision: Schrag.

Conflict of Interest Disclosures: None reported.

Funding/Support: Dr Brooks was supported by a Young Investigator Award from the Conquer Cancer Foundation of the American Society of Clinical Oncology and by a program grant from the National Cancer Institute of the National Institutes of Health (R25CA09220).

Role of the Funder/Sponsor: The funders had no role in the design and conduct of the study; collection, management, analysis, and interpretation of the data; preparation, review, or approval of the manuscript; and decision to submit the manuscript for publication.

Disclaimer: The contents of this publication are the sole responsibility of the authors, and do not necessarily represent the official views of the National Cancer Institute, the National Institutes of Health, or the American Society of Clinical Oncology.

CORRECTION

Error in Byline: In the Original Investigation titled “Hereditary Diffuse Gastric Cancer Syndrome: CDH1 Mutations and Beyond” by Hansford et al, published online February 12, 2015, in JAMA Oncology (doi:10.1001/jamaoncol.2014.168), one of the author’s names in the byline was misspelled. The name should have appeared as Carla Oliveira, PhD. The error also occurred in the Author Affiliations and the Author Contributions. This article was corrected online.

Incorrect and Incomplete Table Headings: In the Original Investigation titled “Use of Electric Power Morcellation and Prevalence of Underlying Cancer in Women Who Undergo Myomectomy” posted online first in the February 19, 2015, issue of JAMA Oncology (doi:10.1001/jamaoncol.2014.206), headings were formatted incorrectly and incompletely in Table 1. The corrected second column heading, spanning 2 subcolumns, reads “Electric Power Morcellator,”; and its 2 subcolumn headings read, from left to right, “Not Used” and “Used.”
